

1993-2023

CELEBRATING 30 YEARS!

Thank you for all your wonderful support over this journey – we are excited to continue serving you for many years ahead.

HISTORY OF BYFORD ACCOUNTANTS:

“The strength of the team is each individual member. The strength of each member is the team” – Phil Jackson

1993 – Darren incorporated Byford Accountants and starting working as a sole practitioner, working from a house in Beenyup Road Byford.

1995 – Darren moved to 887 Southwestern Highway, into an old brick & tile house with a tin shed next to it. Darren ran the business from the tin shed.

1995 – Byford Accountants gained its first employee to assist Darren with the day-to-day operations.

2000 – Darren knocked over the tin shed and ran Byford Accountants from the old brick & tile house. Substantial renovations were completed to turn the old house into a suitable office.

2008 – The Byford Accountants team designed and built the office (as you can see in the pictures below). The old brick & tile house was knocked over to make room for the spacious car parking lot.

2023 – Byford Accountants has now grown to a team of 14 superstars who are here to help you with your taxation and business needs.

KEY INFORMATION TO BE AWARE OF:

- The \$1,500 Low- and Middle-Income Tax Offset has not been extended by the Labor government for the 2023 tax year.
- The instant asset write off will be reduced to just \$20,000 from 01 July 2023. Small businesses with an annual turnover of less than \$10 million will be able to access this measure.
- From 01 July 2023, joint applications may be made by friends, siblings and other family members under the First Home Buyer Guarantee scheme. Non-first home buyers who have not owned a property in Australia in the last ten years will also be eligible.
- Small businesses with an annual turnover of less than \$50 million may receive an additional 20% deduction on spending that supports electrification and more efficient use of energy (up to a limit of \$100,000 in spending), for spending incurred between 01 July 2023 and 30 June 2024.
- There are some FBT exemptions for electric cars. Contact us to find out more.

HOW WE CAN ASSIST YOU:

- Our team of experts can assist you in preparing your tax returns to ensure that you claim all that you are entitled to in order to maximise your refund.
- If you have a rental property, our team of specialists can ensure that nothing is missed, including depreciation costs on the property.
- If you run a business, we have experts who can assess whether a restructure into a Family Trust/Company/other entity can provide better asset protection and tax outcomes to help you grow your business.
- We can assist you with calculating the tax benefits of acquiring new assets for your business.
- If you are looking at selling your business, our team can help you prepare for sale and advise on how to achieve the best tax outcome.
- If you are a property developer or looking to subdivide your current property, we can guide you through the complexities in order to avoid any nasty surprises.

CHANGES TO THE TEAM:

We are excited to welcome Jo to our team. Jo is a senior accountant who has decades of experience working with businesses of all different sizes and operating under different tax structures (e.g. Family Trusts/Companies and other set ups). Jo will ensure that we can give you the very best service and tax advice.

We are thrilled to have Gillian on board with us. Gillian is a bookkeeper/assistant accountant who has many years of experience in the industry and can work with you to stay ATO compliant. If you have any questions in regards to your software, Gillian is more than happy to assist you and keep your records on track.

We are excited for Jasmine and Jono as they had a beautiful baby a few months ago. Jasmine will no longer be with us while she takes time off to look after their child, but there is every chance that if you are in the office that you may spot her having a chat and coffee at the front desk and saying hello.
